

1.2.2. Modify/Delete Page

In order to work on a page, simply click on the page title in the left hand column. The procedure is the same with a new page or an existing page.

As an administrator, or user with sufficient privileges you have additional options. You can switch public visibility on and off as well as change the order your pages will appear on the site navigation menu. See the buttons on the right:

Button	Description
	Visibility, toggle on or off
	Modify page settings (including name change)
	Move page order up or down
	Site trash
	View site
