

Form

The form module gives you the ability to create forms that will email you the information collected.

Creating a Form page is simple. Select **Form** from the menu in the **Add Page** section. Give the page a title and click **Add**. After you have created your page, click on the Page Title in the **Modify/Delete Page** list and you should see the following page:

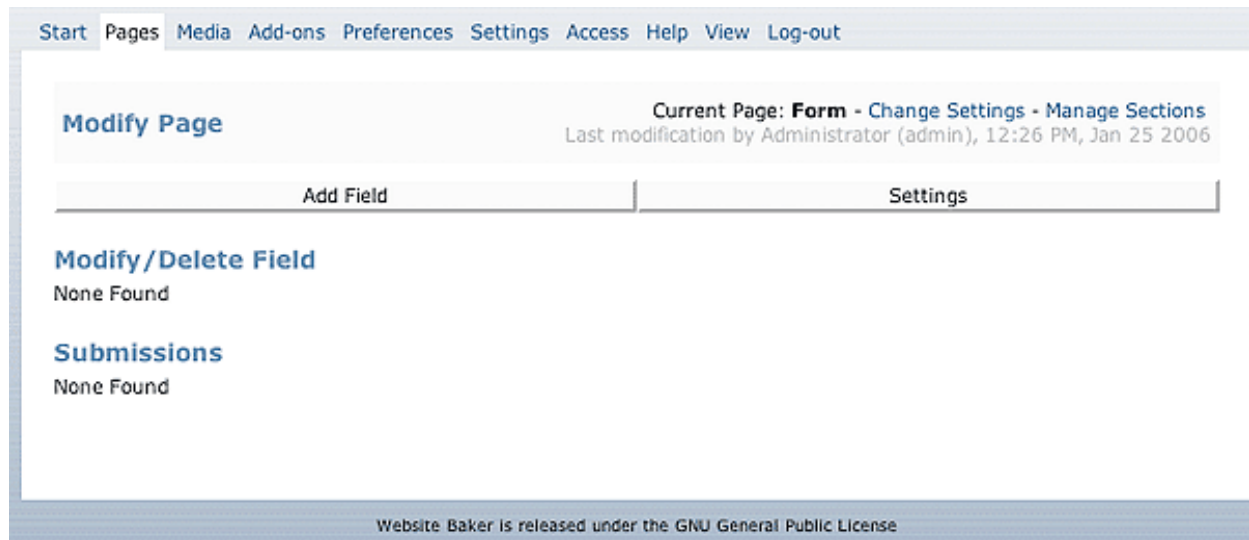

Fig.9. - The Form Module.

As you see, the page is divided into three sections with 2 buttons.

Sections:

1. Modify Page
2. Modify/Delete Field
3. Submissions

Buttons:

1. Add Field
2. Options

Section	Description
Modify Page	Here you will find page related options that allow you to modify the Form page.
Modify/Delete Field	Here you will find options that relate to changing or deleting already existing form fields
Submissions	Here you will find a list of submission that have been made using the form from your website. You may edit or delete the submissions.

Button	Description
Add Field	Click this button to add a new field to your form.
Options	Click this button to modify general form options.
